—The Kansas City Journal of Tuesday pays the following compliment to a gentleman whose friends in St. Joseph are legion: "Col. J. F. Barnard, general superintendent of the Kansas City, St. Joseph, & Council Bluffs railroad, was 100 1/2 about the city yesterday. He is one of the ablest practical railroad managers and operators in the country, and so far as cost is concerned he has about brought the system of operating to science. There is no line of railroad in the west more effectively managed than the K. C., St. J. & C. B.; few lines earn more money, and we believe none cost so small a percent to operate. This comes no doubt, from the fact that the general superintendent understands and personally oversees almost every detail of the work in his charge. There are rumors that Col. Barnard will in the near future be made general manager of the Hannibal & St. Joseph and the K. C., St. J. & C. B. lines. If such should prove true, the honor will have come to him on account of pure merit and nothing else, for he is not a man who seeks position through any kind of bribery or outside influence."
